### **DETAILED ACTION**

**The amendment and the surrender of the patent dated 11-20-00 are acknowledged.**

**1. Claims 16-57 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter patented in the parent application of the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously patented prior to the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251.**

**Applicant's arguments have been fully considered, but are not found to be persuasive. The patented file is a divisional of 08/383,291. The claims of 08/283,291 are drawn to compounds which read almost identically to the added claims in the reissue application, although some limitations are different. However, since there was a restriction requirement between the compound and liposome claims in the original application (see paper # 4) to try now to add claims in this application to the originally patented claims or**

**broadened counterparts is improper recapture as well as prohibited by the two year broadening rule.**

**The claims to specific cancers appears to be unsupported in the specification and such claims were not previously presented (only a general claim to cancer was presented before) and therefore, is improper broadening.**

**The declaration has been fully considered, but deemed to be insufficient since no error was pointed out specifically; only added claims are presented which by themselves do not define the error to be corrected.**

- 4. In claim 1, line 11, the change made is still not underlined (now on line 13).**
- 5. Claims 1-15 are allowable upon the correction of the claim as pointed out above.**

**1. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).**

**A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the**

**advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.**
